## EXPERIENCE

**Freelance Web Developer:** Jan 2025 - Present  
The Dog and Collar LTD, Haverhill

**Project Overview:** Designed and developed a fully functional website for a local dog grooming business, enhancing their online presence and customer engagement.

**Features:**

- Responsive UI
- User-Friendly
- Content Management
- Booking System Integration

**Technical Skills:**

- Languages: HTML, CSS, JavaScript
- Database Management: MongoDB
- Web Frameworks: React, Node JS.

**Store Assistant:** Oct 2021 - Present  
Home Bargains, Haverhill

- Provided exceptional customer service by greeting customers, assisting with product queries, and ensuring prompt and friendly service.
  - Worked collaboratively with team members to deliver store goals, including maintaining cleanliness and tidiness throughout the store.
  - Demonstrated versatility by working across different store areas, such as the café or garden centre, as needed.
- 

## EDUCATION

**BSc (Hons) Software Engineering:** Sep 2022 - Present  
Anglia Ruskin University, Cambridge

Expected graduation date: June 2025

- Pursuing a BCS and IET accredited degree in Software Engineering, focusing on developing advanced coding and programming skills.
- Gaining expertise in various programming languages including Java, C#, and JavaScript, supported by MySQL server databases.
- Developing proficiency in software development lifecycle, from analysis and design to implementation, testing, and maintenance.
- Engaging in practical projects and coursework, emphasizing problem-solving and innovative software solution.
- Studying key modules such as Object Oriented Programming, Database Design and Implementation, Digital Security, and Algorithm Analysis and Data Structures.

- Acquiring skills in cloud computing, machine learning, and human-computer interaction through specialized modules
